Corporate Tax review checklist

Fictional examples for testing evidence retrieval and citations. Not legal advice, legislation, official guidance or verified professional standards.

1. REVIEW WORKFLOW

For a fictional Corporate Tax review, obtain the trial balance, financial statements, fixed asset register and prior review notes. Reconcile accounting profit to the supporting ledgers. Record unresolved questions for professional review.

2. DOCUMENT REQUEST CHECKLIST

Request entity registration records, ownership structure, contracts, related-party schedules, revenue analysis and expense support. This checklist does not prescribe statutory filing obligations or eligibility rules.

3. ILLUSTRATIVE FINANCIAL INFORMATION

Fictional example: Demo Trading records AED 100,000 of revenue and AED 60,000 of supported operating expenses. These numbers illustrate a reconciliation workflow, not a tax calculation or legal conclusion.

4. FICTIONAL REVIEW OBSERVATIONS

The reviewer noted missing supplier support and an unreconciled related-party balance. Request evidence, document the response and escalate unresolved matters. No actual client information is included.
